

# Automatically Turn Top Performing Products into Facebook Ads with Kenshoo Demand-Driven Campaigns™

## The Old Way (Manual)

- Analyze sales performance data from backend systems
- Select top products to advertise
- Gather product info, images, prices, landing pages, etc.
- Create ad copies, polish assets, create tracking URLs

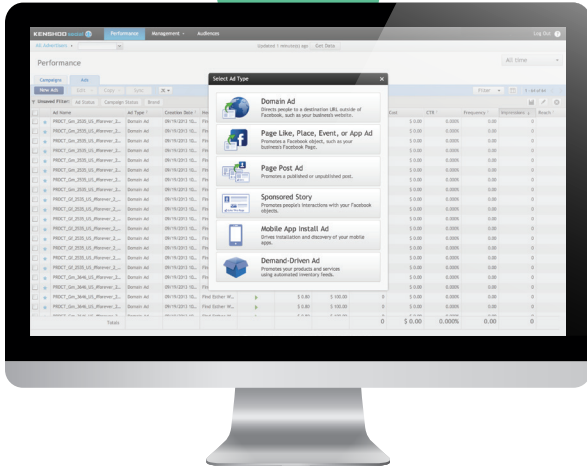

## The Kenshoo Way (Automated)

- Leverage trend signals from inventory systems  
Likes, loves, shares, wishlists, sales volume, etc.
- Identify performance triggers from SEM and PLA campaigns  
CVR, ROI, click volume, etc.
- Dynamic ad copy and audience targeting templates
- Go!
